1. Introduction

1.1. Document Overview

This Test Report provides a summary of a test set. This document has been generated automatically from the test management platform.

1.2. Test Set Description

This test set specifically targets the WB-6

2. Tests

2.1. Test WB-169

2.1.1. Test Summary

Registration by manually entering an email address and password

2.1.2. Test Description

2.1.3. Pre-Condition(s)

Key	WB-159
Summary	Email address that is not registered on Booking.com
Definition	

2.1.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.1.5. Test Procedure

This Manual Test has 6 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Email address" field is completed with a valid email address	Valid email address	The field should be filled correctly without displaying any errors
4	"Continue with email" button is clicked	-	The user is taken to the next step of password assignment
5	Both fields "Password" and "Confirm password" are completed with a valid input	Valid input	The fields should be filled correctly without displaying any errors
6	"Create account" button is clicked	-	1. The user is redirected to the Booking.com homepage 2. The user becomes signed-in 3. A prominent pop-up window should display messages sequentially welcoming the user to Genius and offering discounts

			4. An email titled "One click to confirm" is issued to the user's email address

2.2. Test WB-160

2.2.1. Test Summary

"Select your language" option is selected

2.2.2. Test Description

2.2.3. Pre-Condition(s)

None

2.2.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.2.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Select your language" option is selected from the top bar section	-	The option icon should transform into a highlighted square with a brighter blue tone

2.3. Test WB-161

2.3.1. Test Summary

"Select your language" option is clicked

2.3.2. Test Description

2.3.3. Pre-Condition(s)

None

2.3.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.3.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Select your language" option is clicked from the top bar section	-	1. A pop-up window should appear at the center of the page, displaying 45 different languages 2. The current language should be highlighted

2.4. Test WB-162

2.4.1. Test Summary

The language is changed

2.4.2. Test Description

2.4.3. Pre-Condition(s)

None

2.4.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.4.5. Test Procedure

This Manual Test has 4 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Select your language" option is clicked from the top bar section	-	1. A pop-up window should appear at the center of the page, displaying 45 different languages 2. The current language should be highlighted

4	A language other than the current one is selected	-	1. The content of the current page should be displayed in the selected language 2. The top-bar icon should now show the flag corresponding to the selected language flag

2.5. Test WB-163

2.5.1. Test Summary

The selected language is applied universally across the website's content

2.5.2. Test Description

2.5.3. Pre-Condition(s)

None

2.5.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.5.5. Test Procedure

This Manual Test has 5 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Select your language" option is clicked from the top bar section	-	1. A pop-up window should appear at the center of the page, displaying 45 different languages 2. The current language should be highlighted
4	A language other than the current one is selected	-	1. The content of the current page should be displayed in the selected language 2. The top-bar icon should now show the flag corresponding to the selected language flag

5	"Help and Support" option is clicked from the top bar section	-	1. The user should be redirected to the main page of the "Help Center" 2. The content is displayed in the previously selected language

2.6. Test WB-164

2.6.1. Test Summary

"Email address" field is clicked

2.6.2. Test Description

2.6.3. Pre-Condition(s)

None

2.6.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.6.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Email address" field is clicked	-	The field should be highlighted in blue

2.7. Test WB-165

2.7.1. Test Summary

"Terms & conditions" link is accessed

2.7.2. Test Description

2.7.3. Pre-Condition(s)

None

2.7.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.7.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Terms & conditions" link is accessed	-	The user is redirected to the main page of "Terms & Conditions"

2.8. Test WB-166

2.8.1. Test Summary

"Privacy statement" link is accessed

2.8.2. Test Description

2.8.3. Pre-Condition(s)

None

2.8.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.8.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Privacy statement" link is accessed	-	The user is redirected to the main page of the "Privacy Statement" website

2.9. Test WB-168

2.9.1. Test Summary

An existing registered email address is submitted

2.9.2. Test Description

2.9.3. Pre-Condition(s)

Key	WB-167
Summary	Already registered account
Definition	

2.9.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.9.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	The user submits with an email address that is already registered	Registered email address	1. The page should display the following: *Check your inbox* *We've just emailed a verification link to* {provided email address} *Once it arrives, it will be valid for 10 minutes.* 2. The user should receive an email titled "Your verification link" available 10 minutes

2.10. Test WB-170

2.10.1. Test Summary

"One click to confirm" email is opened

2.10.2. Test Description

2.10.3. Pre-Condition(s)

Key	WB-159
Summary	Email address that is not registered on Booking.com
Definition	

2.10.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.10.5. Test Procedure

This Manual Test has 7 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Email address" field is completed with a valid email address	Valid email address	The field should be filled correctly without displaying any errors
4	"Continue with email" button is clicked	-	The user is taken to the next step of password assignment
5	Both fields "Password" and "Confirm password" are completed with a valid input	Valid input	The fields should be filled correctly without displaying any errors
6	"Create account" button is clicked	-	1. The user is redirected to the Booking.com homepage 2. The user becomes signed-in 3. A prominent pop-up window should display messages sequentially welcoming the user to Genius and offering discounts 4. An email titled "One click to confirm" is issued to the user's email address
7	The received email is opened	-	The issued email should contain accurate information, including: 1. The email address used to create the account. 2. Booking.com address (Oosterdokskade 163, 1011 DL Amsterdam, Netherlands)

2.11. Test WB-171

2.11.1. Test Summary

The submitted email address is being verified

2.11.2. Test Description

2.11.3. Pre-Condition(s)

Key	WB-159
Summary	Email address that is not registered on Booking.com
Definition	

2.11.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.11.5. Test Procedure

This Manual Test has 9 Steps

Step	Action	Data	Expected Result
1	The user is accessing https://www.booking.com/index.en-gb.html	-	The user is redirected to the homepage of the website
2	"Sign in" option is clicked	-	The user is redirected to the page prompting them to "Sign in or create an account"
3	"Email address" field is completed with a valid email address	Valid email address	The field should be filled correctly without displaying any errors
4	"Continue with email" button is clicked	-	The user is taken to the next step of password assignment
5	Both fields "Password" and "Confirm password" are completed with a valid input	Valid input	The fields should be filled correctly without displaying any errors
6	"Create account" button is clicked	-	1. The user is redirected to the Booking.com homepage 2. The user becomes signed-in 3. A prominent pop-up window should display messages sequentially welcoming the user to Genius and offering discounts 4. An email titled "One click to

			confirm" is issued to the user's email address
7	The received email is opened	-	The issued email should contain accurate information, including: 1. The email address used to create the account. 2. Booking.com address (Oosterdokskade 163, 1011 DL Amsterdam, Netherlands)

2.13. Test WB-175

2.13.1. Test Summary

Registration via Google method

2.13.2. Test Description

2.13.3. Pre-Condition(s)

Key	WB-176
Summary	The user has a Google account connected
Definition	

Key	WB-177
Summary	The selected Google account has not been registered with Booking
Definition	

2.13.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.13.5. Test Procedure

This Manual Test has 3 Steps

Step	Action	Data	Expected Result
1	Endpoint https://account.booking.com/sign-in is requested	-	Response status code is 200 OK
2	Google option is selected	-	A separate window pop-up will appear, displaying the user's currently connected Google accounts
3	A Google account that has not been registered with Booking is selected	-	1. The user is redirected to the Booking.com homepage 2. The user becomes signed-in 3. An email will be dispatched for account verification purposes. 4. A welcome email will be dispatched upon successful account creation.

2.14. Test WB-178

2.14.1. Test Summary

Registration via Apple method

2.14.2. Test Description

2.14.3. Pre-Condition(s)

Key	WB-179
Summary	The Apple ID has not been registered with Booking platform
Definition	

2.14.4. Requirement(s) linked with this test

Is not associated to Requirements.

2.14.5. Test Procedure

This Manual Test has 5 Steps

Step	Action	Data	Expected Result
1	Endpoint https://account.booking.com/sign-in is requested	-	Response status code is 200 OK
2	Apple option is selected	-	A separate window pop-up will appear, requesting the user to use their Apple ID to continue the process

3	1. The user inserts a valid phone number or email ID associated to their Apple ID 2. Next button is clicked	valid phone number or email ID	A new field labeled "Password" becomes available
